

KGM UNIVERSAL PVT.LTD.

KGM Universal Pvt. Ltd. is one of the leading importer And distributor for personal care industries in North India based on Delhi with experienced team. Our Business grown rapidly along the way we tool few key decisions which set us on the path specialization.

KGM is committed to provide its customers with the Good quality of product, highest level of product, highest level of support, service and respect they have cometo expect over the years and also cometo expect over the years and also employees with opportunities for career.

SOME OF OUR PRODUCTS

- SILICONE
- EMULSIFIER
- POLYMER
- ACTIVE RANGE
- SURFACTANT
- THICKNER
- VITAMINS
- PRESERVATIVE

SILICONES

PRODUCT	INCI NAME	BENEFITS	DOSAGE	APPLICATION
SNS SFL 45	Cyclopentasiloxane	It is an excellent base fluid for personal care products. It is a volatile carrier fluid with low surface tension and gives a non-tacky, non-greasy, soft feel, to the skin. It gives excellent spreadability and lubricity.	1.0- 50.0	Skin Care Emulsions, Hair Care- Conditioners, Serums, Color Cosmetics, Sunscreens, make-up products
SNS STC 44	Cyclotetrasiloxane			
SNS SGB 15	Cyclopentasiloxane and Dimethiconol	It is a blend of high molecular weight Dimethiconol and Cyclopentasiloxane. It is a premium soft feel cosmetic fluid.	1.0- 50.0	
SNS SDM 35	Dimethicone	It is a methylated linear siloxane polymer stabilized with trimethylsiloxane end blocking units. It is clear, colourless lubricant used to create a smooth, non-greasy and non-tacky feel. It is smooth, non-greasy, water repellant lubricant.	1.0- 10.0	
SNS SPF 56	Phenyl Trimethicone	They are perfect emollients with non-oily feeling and good compatibility with cosmetic ingredients. Widely used in skin and hair care products, such as body cream and lotion, sunscreen product, make-up products, deodorant, antiperspirant, hair conditioner.	1.0- 50.0	Skin care, Hair care, Colour cosmetics, Sunscreens, Toners, Make-up products,
			1.0- 50.0	Deodorants, Anti-perspirants, Hair Conditioners
SNS SEB 45	Cyclopentasiloxane & Dimethicone Crosspolymer	It is a mixture of high molecular weight silicone elastomer in cyclopentasiloxane. Provides dry smoothness and a light silky skin feel non-greasy and it is used like oil based thickner. It has slight sebum absorption effect.	1.0- 50.0	Skin care, Hair care, Colour cosmetics, Sunscreens, Toners, Make-up products, Deodorants, Anti-perspirants, Hair Conditioners
SNS SEP 93	PEG 12 Dimethicone	It is a silicone polyether co-polymer surfactant used extensively in hair care products, skin care products and shaving lotions. It can form stable foam at low dosages while also giving a soft feel to skin. It is both water and alcohol compatible. It gives soft, silky feel to hair and skin. Forms a stable foam. Low surface tension and good wetting agents.	1.0- 10.0	
SNS SEP 85	Dimethicone TEA & Dodecyl benzenesulfonate	A very good additive for 2-in-1 shampoo and conditioner product. In shampoo, it improves wet and dry combing, and imparts a slippery and soft feel to the hair. The emulsion has no impact on either lather quantity or quality.	0.5- 5.0	Face Wash, Shampoos, Shower Gel, Body Wash

SILICONES

PRODUCT	INCI NAME	BENEFITS	DOSAGE	APPLICATION
SNS SAE 49	Amodimethicone & Cetrimonium Chloride & Trideceth 12	An Amodimethicone cationic silicone polymer in Trideceth-10 and Cetrimonium chloride surfactants. This macro- emulsion is used extensively in hair care products. It improves combability and gives an excellent conditioning effect. It gives soft ,silky and light feel to hair.	0.5- 5.0	Shampoos, Conditioners
SNS SCB 79	Cyclopentasiloxane and Trymethylsiloxysilicate	SNS SCB 79 is a blend of approximately 50 percent trimethylsiloxysilicate and 50 percent cyclopentasiloxane. After the evaporation of the cyclopentasiloxane, the high-molecular-weight silicone resin forms a highly durable film on the skin	1.0-5.0	Lipstick
SNS SMR 16	Trymethylsiloxysilicate	SNS SMR 16 is a silicone which has more property in colour cosmetics like it is Improved substantivity and Increased durability and its fell like Smooth skin feel Water and Less oily repellency	1.0-5.0	Lipstick
SNS SAF 701	Dimethicone/Vinyl Dimethicone Crosspolymer Silica	SNS SAF 701 is a silicone powder with silica treated coating. . Easy dispersion in different media - even in the presence of pigments - makes it possible to introduce the product into a wide variety of skin care, sun care and color cosmetic formulations (including hydrogels) without using sophisticated processes or equipment. The design of the powder also provides wrinkle masking benefits as well as superior skin feel and fluid/oil/sebum absorption capabilities.	.05-1.0	Colour Cosmetics
SNS SCB 31	Cyclopentasiloxan (and) Phenul Trimethicone (and) Dimethiconol (and) C-12-15 Alkyl Benzoate (and) Dimethicone Crosspolymer	SNS SCB 31 is a silicone which is ready to use hair serum its feels non gressy and non oily smooth feel and it is also reduce spreadbilty.	1.0-5.0	Hair care & Skin care & Sun Care
SNS SCB 21	Cyclopentasiloxane (and) Phenul Trimethicone (and) Dimethiconol (and) C-12-15 Alkyl Benzoate (and) Dimethicone Crosspolymer	SNS SCB 21 is a silicone fluid for personal care applications with excellent aesthticsSpreding easy rub out it is also used in hair spray and leave on conditioner applications and in color cosmetic as a Antiperspirant	3.0-10.0	Hair care

SKIN LIGHTENING/ ANTI- PIGMENTATION ACTIVES

PRODUCT	INCI NAME	BENEFITS	DOSAGE	APPLICATION
Alpha Arbutin	Alpha Arbutin	Effective and stable natural skin lightening / whitening and depigmentation agent. Also prevents liver spots and freckles, treats sunburn marks & regulates Melanogenesis and inhibits melanin synthesis. Protects the skin from damages caused by free radicals.	0.2- 2.0	Creams, Lotions, Scrubs, Masks, Serums, Face Packs
Beta Arbutin	Beta Arbutin	Blocks epidermal melanin biosynthesis by inhibiting enzymatic oxidation of Tyrosine and Dopa. Promotes skin lightening and an even skin tone on all skin types and also minimizes liver spots.	1.0- 7.0	Creams, Lotions, Scrubs, Masks, Serums
Kojic Acid	Kojic Acid	Inhibits tyrosinase activity and is cost effective skin lightener.	0.5- 5.0	Creams, Lotions, Scrubs, Masks, Serums, Face Packs
Kojic Acid Dipalmitate	Kojic Acid Dipalmitate	It is more effective than Kojic Acid, excellent in even toning the skin, fighting age spots, pregnancy marks, freckles and general skin pigmentation disorders. It is stable within wide Ph range 3-10 and does not chelate with metal ions which lead to colour change and instability.	0.5- 5.0	Creams, Lotions, Scrubs, Masks, Serums, Face Packs
Ethyl Ascorbic Acid	Ethyl Ascorbic Acid	It is the best currently-known derivative of vitamin C . It has a very stable chemical properties. It inhibits the activity of Tyrosinase , prevents the formation of Melanin, Resists inflammation caused by sunburn, Improves Skin's complexion, promotes the synthesis of collagen, enhances skin's elasticity.	0.5- 25.0	Creams, Lotions, Scrubs, Masks, Serums, Face Packs
Niacinamide	Niacinamide	It is a form of Vitamin B3 used to prevent and treat niacin deficiency. It is vital nutrient for the skin. It will help in Hyper pigmentation, minimize lines and wrinkles, protects skin from Infra light, Even skin tone, boots immunity of skin.	0.1 - 2.0	Fairness creams, Sunscreens, Moisturizers, Hair tonics, Bath products, Shampoos

ANTI-AGEING/ ANTI-WRINKLE ACTIVES

PRODUCT	INCI NAME	BENEFITS	DOSAGE	APPLICATION
Ceramides	Ceramides	Ceramides are used to replenish the natural lipids that are lost from exposure to harsh environmental factors, use of drying products, and during in the aging process. They restore moisture, fortify the skin's natural barrier and help protect it against harm from foreign elements. Ceramides are also particularly effective in treating eczema.	0.5- 2.0	Creams, Lotions, Serums, Masks, Oils

MOISTURIZERS/ EMOLLIENTS/ SOOTHING ACTIVES

PRODUCT	INCI NAME	BENEFITS	DOSAGE	APPLICATION
Sodium PCA	Sodium PCA	Sodium PCA increase the water content of the top layers of the skin by drawing moisture from the surrounding air. They also enhance the appearance and feel of hair, by increasing hair body, suppleness, or sheen, or by improving the texture of hair that has been damaged physically or by chemical treatment.	1.0- 5.0	Creams, Lotions, Serums, Face Wash, Shampoo, Conditioners
Allantoin	Allantoin	Anti-inflammatory, keratolytic and moisturizing properties; It acts as a moisture barrier for the skin, increasing moisture retention. Allantoin relieves skin irritation which can arise from use of AHA's and some common surfactants. It is a very safe and effective skin protectant.	0.2- 2.0	Creams, Lotions, Serums, Face Wash, Shampoo, Conditioners
D-Panthenol	D-Panthenol	D Panthenol is a provitamin of Vitamin B5. It is widely used as humectant, moisturizer and emollient in cosmetics and personal care products.	0.5- 0.2	Creams, lotions, Serums,

THICKENERS/ RHEOLOGY MODIFIERS

PRODUCT	INCI NAME	BENEFITS	DOSAGE	APPLICATION
Acrylates Copolymer	Acrylates Copolymer	It acts as a rheology modifier and suspending agent. It is a lightly cross-linked acrylate copolymer. It provides exceptional clarity around neutral pH and desirable flow characteristics. It enhances pearlization appearance to improve the visual impact of pearlizing additives in surfactant-based systems. It offers increased suspending, stabilizing and thickening benefits through back-acid formulating.	2.0- 8.0	Face wash, Body Wash, Shampoos, Shower gel
Acrylates/ C 10-30 Alkyl Acrylate Crosspolymer	Acrylates/ C 10-30 Alkyl Acrylate Crosspolymer	it acts as a thickener, rheology modifier and suspending agent. It is a white powder, hydrophobically-modified cross- linked acrylate copolymer. It is easy-to-use as it self-wets and disperses within minutes. It provides improved swelling time, electrolyte tolerance, rich creamy skin feel, exceptional clarity and unique sensory benefits in formulations.	0.2- 1.0	Face wash, Body Wash, Shampoos, Shower gel, Creams, lotions, Hair Gels
Carbomer 940	Carbomer 940	It is an acrylic-based polymer in powder form. It is typically used to formulate transparent and thick gels. It is an optimized grade of Carbomer with better viscosity and high clarity.	0.2- 1.0	Creams, Lotions, Serums, Gels, Hand Sanitizers
Carbomer 980	Carbomer 980	It is an acrylic-based polymer in powder form. It is typically used to formulate transparent gels. It is an optimized grade of Carbomer with better handling, clarity and less foam. It is used in hair care and skin care products, for gel, lotions and cream formulations.	0.2- 1.0	Creams, Lotions, Shampoos, Gels

SURFACTANTS (SULFATE FREE)

PRODUCT	INCI NAME	BENEFITS	DOSAGE	APPLICATION
Coco Glucosides	Coco Glucosides	Non-ionic natural eco-certified plant based surfactants. Very mild surfactant, foam booster, thickener in shampoos, face wash, body wash, shower gel. Can be used in baby care products	3.0- 20.0	Shampoos, Face Wash, Cleansers, Shower gels, Bubble Bath, Body Wash, Soap Bars, Hand Wash
Decyl Glucoside	Decyl Glucoside		3.0- 20.0	
Lauryl Glucosides	Lauryl Glucosides		3.0- 20.0	
Sodium Cocoylsethionate	Sodium Cocoylsethionate	Easy foaming, resistant to hard water. Used in soap base as mild, high foaming surfactant. Gives silky, soft and slippery feeling after washing. It is widely used for its super mildness, moisture balance and high fat content	2.0- 25.0	
CAPB	CAPB	Amphoteric surfactant. Used as mild, foam booster, thickener	2.0- 10.0	

CONDITIONING AGENTS

PRODUCT	INCI NAME	BENEFITS	DOSAGE	APPLICATION
Polyquaternium 7	Polyquaternium 7	It is a highly substantive aqueous cationic polymer for use in skin and hair care formulations. It is readily soluble in water, compatible with anionic, amphoteric, cationic and nonionic surfactants, and imparts slip and lubricity to formulations.	0.5- 3.0	Shampoo and Hair growth formula.
Polyquaternium 10	Polyquaternium 10	A water-soluble cationic polymer with good performances of thickening, colloid stability, antistatic ability, moisturization, lubrication.	0.5- 5.0	
Polyquaternium 39	Polyquaternium 39	A water-soluble cationic polymer with good compability, antistatic ability, moisturization, lubrication.	0.5- 5.0	
Hydrolyzed Keratin	Hydrolyzed Keratin	It imparts gentle and glossy feel to hair because of its effective absorption and film-making properties. Excellent moisture binding properties, resulting in optimum conditioning and increased strength. Improves elasticity and resiliency.	0.5- 5.0	

SUNSCREENS/ UV FILTERS

PRODUCT	INCI NAME	BENEFITS	DOSAGE	APPLICATION
Avobenzene	Avobenzene	Broad spectrum UV-A filter ideal for application in personal care products ,sun care, baby sun care, daily skin care and decorative cosmetics with sun protection.	1.0- 5.0	Sunscreen Creams, lotions, Anti-ageing products, Skin Lightening products
Benzophenone 3/ Oxybenzone	Benzophenone 3/ Oxybenzone	It is oil soluble powder for broad spectrum sunscreen active with maximal UV absorbance in the 320-400nm range. Can be also used up to 0.5% as light stabilizer in cosmetic formulations.	1.0- 5.0	
Benzophenone 4	Benzophenone 4	It is a broad spectrum water-soluble UV-filter absorbing in both the UV-A and UV-B range, facilitating easy incorporation into a wide range of skin care, hair care and sunscreen products.	1.0- 5.0	
Micronized TiO2	Micronized TiO2	Titanium Dioxide is Inorganic UV filter	1.0- 20.0	
Octocrylene	Octocrylene	An oil miscible UV-B absorber. Because it is hydrophobic and oil-soluble, it is preferred for water resistant and water repellant formulations. Also features excellent photo stability and it has the ability to stabilize Avobenzene.	1.0- 5.0	
Octyl Salicylate	Octyl Salicylate	It is an oil soluble UVB absorber, used in combination with other UV absorber to boost the SPF. It is ideal for use in sun care and skin care products for daily protection & an exceptional addition to protective hair-care and lip-care products.	1.0- 5.0	

PRESERVATIVES/ ANTI-OXIDANTS

PRODUCT	INCI NAME	BENEFITS	DOSAGE	APPLICATION
Imidazolidinyl Urea	Imidazolidinyl Urea	A stable compound with broad spectrum of antimicrobial activity, no sensitization of the skin, non-toxic. Can be used as a preservative in the water based cosmetic products against Gram +ve& Gram-ve bacteria. Is effective over a wide pH of 3 to 8.5.	0.2- 2.0	Skin Care, Hair Care, Sunscreens, Personal Care
DMDMH and Iodopropyl Butyl carba-mate (IPBC)	DMDMH and Iodopropyl Butyl carba-mate (IPBC)		0.3- 1.0	
Cetyl Pyridinium Chloride (CPC)	Cetyl Pyridinium Chloride (CPC)	A cationic quaternary ammonium antiseptic. Safe & cost-effective multifunctional antimicrobial with broad spectrum efficacy against gram-positive & gram-negative bacteria & fungi at very low dosage rates. Easy to handle, biodegradable, odourless, soluble, stable, formaldehyde free, non-corrosive, non-VOC, non-oxidizing compound with neutral pH. An excellent replacement for formaldehyde-donors, parabens, triclosan, triclocarban, benzethonium chloride, benzalkonium chloride, MIT etc.	0.05- 1.0	Oral care products like mouth wash, toothpaste. Personal care products like Deodorants, Toiletries, Facial wipes, etc
