WHO WE ARE?

VVF constantly endeavors to be a sustainable innovator and partner of choice to its customers. As India's largest Oleochemical manufacturer producing a whole range of fatty acids, fatty alcohols and glycerine, VVF's long-standing partnerships in its personal care business have helped the company understand the global trends and requirements of the future.

As one of the largest contract manufacturers of personal care products in the world, with our expert R & D team and years of experience, we help develop products right from its conceptual stage providing end to end support in formulation, testing and quality assurance. Our newly set up state of the art innovations studio with a dedicated innovations team ensure optimization of product development cycle.

WHY VVF?

VVF's specialty chemicals and blends cater to the wide range of industries from personal & home care segment to oil fields, plastics, polymers, paints, coatings etc.

VVF has the capability of creating niche and customized solutions for its customers through its growing portfolio of personal care ingredients and formulations helping brands deliver high-performance quality products that address a myriad of personal care needs.

EMULSIFYING WAXES

A sustainable, plant-based alternative to petroleum-derived products, our emulsifying wax offers a competitive edge as the industry shifts toward greener solutions. Derived from natural, vegetable sources, these waxes deliver exceptional emulsifying, stabilizing, and viscosity-modifying benefits to formulations. Available in both anionic and non-ionic variants, they are versatile enough for use in creams, foaming systems, stick formulations, makeup products, and more—helping formulators create high-performance, eco-friendly solutions.

 VVF BRAND	 INCI NAME	 FUNCTION/PROPERTIES	 INDUSTRY/APPLICATION	 USAGE AND FORM
VEGAROL EW 100	Ceteareth-22 (and) Cetearyl Alcohol	Emulsifier, carrier, excipient in skin care, conditioning in hair care	Cosmetics/Personal Care/Pharmaceutical application in Skin Creams, Hair Conditioners, antiperspirants, depilatories, relaxers & dyes	Dosage: 2–10% Form: Pastille
VEGAROL EW 200	Sodium Lauryl Sulfate (and) Cetearyl Alcohol	Emulsifier, carrier, excipient in skin care, sun care, Highly stable and self-emulsifying nature	Cosmetics/Personal Care/Pharmaceutical application in hair shampoo, hair cleansers, depilatories	Dosage: 2–10% Form: Flakes
VEGAROL EW 300	Polysorbate-60 (and) Cetearyl Alcohol	Emulsifier, carrier, excipient in lotion and cream, conditioning in hair care	Cosmetics/Personal Care/Pharmaceutical application in skin care, moisturizing products, colour cosmetics	Dosage: 2–10% Form: Pastille

SPECIALTY BLENDS

Proprietary blends of specialty ingredients provide an all-in-one solution for formulators, eliminating the need to mix and maintain inventory of individual components. These carefully engineered blends simplify the formulation process while ensuring consistency and performance. They are designed for versatility and find application across diverse formats such as hair conditioners, skin creams, lotions, opaque serums, moisturizing sticks, shower gels, face wash, baby wash, shampoos, baby shampoos, and conditioners. With these blends, formulators can focus on innovation rather than operational complexities.

 VVF BRAND	 INCI NAME	 FUNCTION/PROPERTIES	 INDUSTRY/APPLICATION	 USAGE AND FORM
PROMISOFT HYDRA	Proprietary blend	Emulsifier + emollient gives elegant skin feel, described by users as silky, soft with no sticky or tacky feel on skin	Cosmetics/Personal Care applications in rinse off or leave on hair conditioners, skin creams, lotion, opaque serums, moisturizing sticks	Dosage: 2–4% Form: Pastille
Promisoft 457	Proprietary blend of mild Surfactants	"Mild surfactant with a neutral pH of ~7 ensures gentle care for all skin types. Rich, Creamy Lather, Hard & soft Water Compatible, Ideal for Sensitive, cleansing, Foaming"	"All types of liquid cleansing applications where mildness to sensitive skin and substantial lathering are required. Cleansing Formulations such as shower Gell, Facewash, Baby Wash, Shampoo, Baby Shampoo, Conditioner"	Dosage: 5–10% Form: flakes

MILD SURFACTANTS

SCI (Sodium Cocoyl Isethionate) variants & SLI (Sodium Lauroyl Isethionate) are Fatty Acids-2-Sulfo-Ethyl Esters-Sodium Salt. VVF brings a global perspective to the personal care market by introducing mild surfactant variants based on Isethionate chemistries. Our product variants are highly suitable for use in the personal care domain. The mild surfactant variants with active matter ranging from 55% to 85% find applications in preparation of Syndet bars, combo-bars liquid soaps, hair cleansers etc.

 VVF BRAND	 INCI NAME	 FUNCTION/PROPERTIES	 INDUSTRY/APPLICATION	 USAGE AND FORM
VEGAROL SCI 65	Sodium Cocoyl Isethionate	As surfactant, creates wet feeling, solubilizes oil, and reduces surface tension, also aid in foaming	Personal Care applications like shampoos, shower gels, bubble bath, liquid soaps, baby products, syndet bars	Dosage: 5–15% Form: Flakes/ Powder
VEGAROL SCI 80	Sodium Cocoyl Isethionate	As surfactant, creates wet feeling, solubilizes oil, and reduces surface tension, also aid in foaming	Personal Care applications like shampoos, shower gels, bubble bath, liquid soaps, baby products, syndet bars	Dosage: 5–15% Form: Flakes/ Powder
VEGAROL SCI 85	Sodium Cocoyl Isethionate	As surfactant, creates wet feeling, solubilizes oil, and reduces surface tension, also aid in foaming	Personal Care applications like shampoos, shower gels, bubble bath, liquid soaps, baby products, syndet bars	Dosage: 5–15% Form: Flakes/ Powder
VITACID SLI 80	Sodium Lauroyl Isethionate	As surfactant, creates wet feeling, solubilizes oil, and reduces surface tension, also aid in foaming	Personal Care applications like shampoos, shower gels, bubble bath, liquid soaps, baby products, syndet bars	Dosage: 5–15% Form: Flakes/ Powder
Promissoft DLSS	Disodium Lauryl Sulfosuccinate	Mild anionic surfactant; provides gentle cleansing and rich foam, ideal for sulfate-free formulations	Hair Care, Bath & Shower, Baby Care	Dosage: 2–10% Form: Powder
Promissoft SLL	Sodium Lauroyl Lactylate	Mild surfactant and emulsifier; enhances skin conditioning and moisturization	Skin Care, Hair Care, Bath & Shower	Dosage: 0.5–4% Form: Viscous Liquid

EMOLLIENTS

 VVF BRAND	 INCI NAME	 FUNCTION/PROPERTIES	 INDUSTRY/APPLICATION	 USAGE AND FORM
Promissoft CCTG	Caprylic/Capric Triglyceride	Emollient and skin-conditioning agent; improves spreadability and moisturization in formulations, Emulsifier/ texturizer, stabilizer, and thickener, Lubricant Formulation aid, Surface finishing agent, Excipient	"Skin Care, Hair Care, Colour Cosmetics Skin conditioning agent, occlusive agent"	Dosage: 0.5–10% Form: Liquid
Promissoft G20	Octyldodecanol	Emollient and texture enhancer; provides silky feel and spreadability in creams and lotions	Skin Care, Hair Care, toiletries, Colour Cosmetics	Dosage: 2–10% Form: Liquid

QUATERNARY AMMONIUM COMPOUNDS

Our quaternary compounds are highly effective conditioning agents that deliver exceptional softness, manageability, and anti-static benefits to hair and skin formulations. These cationic surfactants promote superior emulsification, enhance active deposition, and provide long-lasting conditioning performance. Ideal for use in shampoos, conditioners, creams, and lotions, they enable formulators to achieve premium sensory appeal and product stability. Their versatility makes them indispensable for creating high-quality personal care products across diverse formats.

 VVF BRAND	 INCI NAME	 FUNCTION/PROPERTIES	 INDUSTRY/APPLICATION	 USAGE AND FORM
VEGAROL BT 80	Behentrimonium Chloride	As co-Surfactant it goes well with emulsifier having polarity of Non-ionic, Anionic, Cationic, antistatic, emulsifier, Preservative agent	Hair conditioners, Beauty, Bath & Shower, Skin Care	Dosage: 0.5-3% Form: Pastille
VEGAROL CT 25/30	Cetrimonium Chloride	Stable across all pH range. In liquid easy to mix with other ingredients. preservative, antistatic agent, antiseptic, and disinfectant	Beauty, Bath & Shower, Colour Cosmetics, Hair Care, Home Care	Dosage: 0.1-2% Form: Liquid
VEGAROL BT 70	Behentrimonium Chloride & Dipropylene Glycol	Lubrication properties from long C22 alkyl chain, IPA Free, Anti frizz, Conditioning in hair care, Emulsifier	Hair Styling Products, Hair Conditioner, Hair Coloring Products	Dosage: 1-5% Form: Pastille
Promisoft BTMS 25/50	Behentrimonium Methosulfate and Cetyl Alcohol/ Cetosteary Alcohol	"A conditioning Solid that adheres effectively to skin and hair, enhances ease of combing—both wet and dry, leaves hair feeling smooth and silky Formulation-friendly and versatile, Isopropyl alcohol free, melts at a relatively low temperature (~60°C)"	Deep conditioning hair relaxers, Hair conditioners, Hair coloring products	Dosage: 2-8% Form: Pastille

SYNDET BASE

 VVF BRAND	 INCI NAME	 FUNCTION/PROPERTIES	 INDUSTRY/APPLICATION	 USAGE AND FORM
Promisoft SN 553	Proprietary Syndet Base	Mild cleansing base for solid bars; provides excellent foaming and skin conditioning properties	Beauty, Bath & Shower, Skin Care	Form: Noodles/Flakes

VBRASS SERIES

 VVF BRAND	 INCI NAME	 FUNCTION & APPLICATION	 INDUSTRY/APPLICATION	 USAGE AND FORM
VBrass Butter	Stearyl Erucate, Stearyl Behenate	Emollient for rich skin feel; adds conditioning and moisturization in creams and lotions.	Skin Care, Hair Care, Colour Cosmetics	Dosage: 2-25% Form: Semi solid at R T
VBrass Crystalline Wax	Stearyl Behenate	Provides structure and hardness in sticks and balms; improves stability and texture.	Colour Cosmetics, Skin Care	Dosage: 3-10% Form: Solid Flakes
VBrass Soft Wax	Behenyl Erucate	Offers smooth texture and flexibility in formulations; ideal for creams and soft solids.	Colour Cosmetics, Skin Care	Dosage: 3-15% Form: White to off white soft solid
